

Curriculum Visions unique topic song

Chew it through (Digestion)

[Verse]

Chew it up break it down feel the grind
Teeth like a factory working overtime
Swish and swirl let the juices flow
To the stomach where the enzymes go

[Chorus]

Bounce bounce through the maze inside
Microbes dancing they're your guide
Turning bites into fuel for the ride
Digestion's groove where secrets hide

[Verse 2]

Stomach's churn is a bubbling beat
Acids drop like a drummer's feat
Mixing the meal into a slurry blend
Microbes join the party never ends

[Chorus]

Bounce bounce through the maze inside
Microbes dancing they're your guide
Turning bites into fuel for the ride
Digestion's groove where secrets hide

[Bridge]

Small intestine it's a winding trail
Nutrients absorbed without fail
Microbes whisper they know the tune
They hum along to your body's croon

[Chorus]

Bounce bounce through the maze inside
Microbes dancing they're your guide
Turning bites into fuel for the ride
Digestion's groove where secrets hide
