

Curriculum Visions unique topic song

Friction in action

[Verse]

Push the door it holds its ground
Grip on tires spins around
Walking steps don't let you slide
Friction's got your back to guide

[Chorus]

Friction's here it plays its part
Keeps us steady makes us smart
Hold on tight or let it go
It's the secret we all know

[Verse 2]

Sliding boards they need less fight
But climbing walls you hold on tight
Wheels on roads they need the grip
Without it you might just slip

[Bridge]

In the spark and in the brake
In the path and moves we make
Every twist and every turn
Friction's there at every burn

[Chorus]

Friction's here it plays its part
Keeps us steady makes us smart
Hold on tight or let it go
It's the secret we all know

[Verse 3]

Matchstick flames it's in the spark
Pulling sleds through snowy parks
From a hug to holding tools
Friction's power breaks the rules
