Unique topic song

Recycle the world

[Verse]

Old glass bottles, broken, worn
Melt them down, they're reborn
Shiny, new, ready to pour

[Chorus]

Recycle the world, round and round
New things grow from what's broken down
Turn it around, turn it around

[Verse 2]

Scrap metal, rusted, bent
Into the factory, it's sent
Out it comes, a shiny new friend

[Chorus]

Recycle the world, round and round
New things grow from what's broken down
Turn it around, turn it around

[Bridge]

Paper, plastic, even cans
All can have a second chance
Give it a toss in the right bin
Let the cycle begin again

[Chorus]

Recycle the world, round and round
New things grow from what's broken down
Turn it around, turn it around
