

CurriculumVisions Lesson

Students: fill in next to the word answer and return the document for assessment.

Science

Book: Gases around us (5C)

Pages 16-23

Everything here is based on our Curriculum Visions book: Gases around us (5C).

In this segment, we are going to learn more about the different gases in the air.

Part 1

You will need to go to pages 16 and 17 of the book. What are some of the different gases that make up the air? Which gas is most common? Which gas is more important to human and animal life?

Answer.....

Design an experiment to measure the weight of air. If your teacher agrees, try it out.

Answer.....

Part 2

Go to pages 18 and 19 of the book. What is the oxygen cycle?

Answer.....

What happens if the oxygen cycle gets out of balance?

Answer.....

Part 3

Go to pages 20 and 21 of the book. What are some of the main gases that cause air pollution? Where do these come from?

Answer.....

What are some of the effects of air pollution?

Answer.....

Part 4

Go to pages 22 and 23 of the book. Describe how a candle makes heat and light.

Answer.....
